MEMORANDUM FOR: Deputy Director (Administration)

SUBJECT: Proposed Notice Regarding Standardization of Filing Supplies

1. The attached proposed notice regarding the standardization of filing supplies is submitted for your consideration and approval.

14

2. The standardization of supplies is recommended because it permits economies in procurement and procurement procedures; simplifies stocking and warehouse problems; assures uniformity of supplies used in the same file, resulting in a much neater and more business-like appearance; and eliminates the use of either unnecessarily expensive items or items too cheap and flimsy to afford the service desired. The recommended standard supplies were selected as the best for correspondence files by experts of a number of Government Agencies who have had many years of experience in this field.

3. As an indication of the economies that may be derived through standardization of correspondence folders, we have found that the price of folders presently used in the Agency ranges from \$2.17 to \$28.52 per hundred for an average of \$9.72, as compared to \$1.58 per hundred for the recommended folders.

4. The proposed notice has been coordinated with the Logistics Office and has been cleared at the working level with representatives of the offices indicated on the attached route slip.
